SONY

CXS-GT2316F

CD Receiver and Speaker pkg

✦ New

- Front auxiliary input: Sony® has made it easier than ever to connect almost any portable audio device to your car system. One little cable is all it takes to listen to your iPod®, portable music player, or portable DVD player through your Sony Xplod® system (Cable sold separately). No need to mess around with FM modulators to listen to your MP3 player in the car. The auxiliary input is built right into the face of the head unit. All you need to do is plug and play.
- MP3/WMA Playback[1]: Play CDs, CD-Rs, and CD-RWs, including discs loaded with MP3s and WMA files.
- 1x preout: The Sony Xplod® CXS-GT2316F receiver includes a preout so you can boost your car's sound system with minimal effort and maximum flexibility. Use the preout to add a subwoofer and external amplifier, or another audio component, to your Xplod system.
- 52W x 4 High Power: The radio delivers 52 watts of peak power to all four speakers for bass-pumping sound.
- ✦ Built-in HPF/LPF (High Pass Filter/Low Pass Filter): Take advantage of the newly introduced High Pass Filter with front/rear switch, now available in all Sony Xplod® CD Receivers. Both the High Pass Filter and Low Pass Filter process signals in five steps through the 80/100/120/140/160 Hz range, while the Low Pass Filter includes a phase shift function on the subwoofer signal to reduce low-end reverberation, so you can create the sound system you really want.
- The included Wireless Card Remote allows users to control the basic functions of your Sony Xplod® system while keeping your eyes on the road.
- 6 1/2" 2-way coaxial speakers
- HOP Woofer cone and aluminum cone tweeter
- 190W Max Power (40W Rated)

1.Not all MP3, WMA, AAC files may playback due to file variations. Copyright protected ACC-LC files cannot be played back.
